BUREAU OF LAND MANAGEMENT  
P.O. BOX A B  
PRICE, UTAH 84501

DIVISION OF  
OIL GAS & MINING

Niel,

It has been brought to my attention by Curtis Larkin, that we need to amend our mining plan in the areas of blasting and explosive storage.

Enclosed is the amendment, and map Curtis Larkin said that you would need. I hope this covers every thing, if it does not please let me know what else I need to do.

Regards,

James R. Ariotti, Manager

GYPSUM RESOURCE DEVELOPMENT INC.  
MINING PLAN AMENDMENT  
JANUARY 28, 1992

Our mining technique has changed to blasting. We are blasting and mucking a face of 10 feet. Because of this technique the need to store minimal explosives on site is needed. Explosive storage is in accordance with MSHA and Federal Regulations.
